

**Eliminate the guesswork** that hurts your eLearning business and **hurts your ROI. Simplify your data** and build **reports on just about anything.** Predictive Analytics measures the **success** of all aspects of your learning and understands every part of it. Build reports for **You** and **Key Stakeholders.**

# SMART ANALYTICS

## YOUR DATA

- Complete access to all your business and learning data including custom fields and tables
- Analyze data across multiple sites into one report or dashboard
- Access to Salesforce.com, xAPI (LRS), or any other JDBC compliant data
- Use the cloud-based architecture to analyze Big Data

## REPORTS AND DASHBOARDS

- Use the drag and drop designer to create your own reports and dashboards
- Choose from a library of more than 30 out-of-the-box reports and dashboards
- Choose from more than 30 chart styles to effectively visualize your summary data
- Format your reports to conditionally highlight data that requires attention
- Use built-in functions to perform mathematical and statistical analysis

## SHARING

- Let your Learners view embedded reports and dashboards directly in the LMS
- Ensure the right people see the right data by applying your own data visibility rules
- Create calendar-based schedules to automate the delivery of reports to your stakeholders
- Email reports when selected events occur in your LMS
- Export your data to popular formats including Excel, PDF, CSV, and more

## OUT OF THE BOX REPORTS

- Progress Reports
- Instructor Dashboard
- Course and Activity Completion Reports
- Time Spent Learning Reports
- Engagement Dashboard
- Course Enrollments
- Forum Engagement
- Analytics Dashboard
- Login Activity
- Grade Reports
- Quiz and Quiz Question Reports
- Competency Reports
- Assignment Rubric Grading Reports
- Feedback Reports
- Effectiveness Dashboard
